S. F. CHRONICLE BOOSTS NEVADA

The San Francisco Chronicle is making great strides in these days, and every successive statement shows great gains in circulation. These appear to be attributable largely to its patriotic war attitude, which enables it to rise above partisanship and to see and to print only that which will conduce to a speedy termination of the war on terms that will insure the perpetuation of democracy.

The people of Nevada scarcely need be told that the Chronicle is the one California paper that takes a lively interest in this state's leading industry. For years it has followed every phase of the money question, and its bearing upon the silver mining industry. It was the first journal in the country to recognize that the white metal was to regain its old place, and two years before action was taken at Washington to stabilize the price of silver it predicted that it would sell at \$1 an ounce, and has since argued unceasingly in favor of removing the trammels which prevent it being sold in the open market at its value.

The Chronicle is the only paper on the coast that gave intelligent consideration to the deliberations of the Reno money convention. It has printed numerous articles pointing out the difficulties under which the miners labor in producing gold at a price established by the British mint nearly a hundred years ago, and showing the impossibility of successfully prosecuting the industry in the face of the rising price of every commodity and the increased cost of labor.

MASONIC MEETING

A regular convocation of Tonopah Chapter No. 12, R. A. M., will be held in Masonic Hall Wednesday evening, Sept. 25th, at 7:30. By order of the High Priest, GEORGE A. SOUTHWORTH, Secretary.

You Are Helping Us Win, Pershing Wires Boy Scouts

Copy of a letter from General Pershing addressed to the Boy Scouts of America, written in response to messages sent him upon the occasion of his birthday, has just been received in San Francisco. The letter, which was sent to Collin H. Livingston, national president of the Boy Scouts, follows:

"To the splendid army of 400,000 American Boy Scouts the American expeditionary forces send greetings and appreciation for all you are doing for our great cause. Upon you will fall the burden of our civilization. Every act and thought of yours, in keeping with the scout law, will help to make good citizens and good soldiers. Obey it in letter and spirit and all the older scouts who are fighting for you and all we hold dear will shake hands with you as comrades who helped them win the war. Three cheers for the Boy Scouts of America!"

"JOHN J. PERSHING."

QUESTIONNAIRES FOR BOND BUYERS

The Nye County Council of Defense is sending out questionnaires to every resident of the county with the object of ascertaining what each individual is doing towards helping in prosecution of the war. The questions cover every form of warfare activities and call for specific statements about what has been subscribed for the various forms of work connected with the war.

The federal government demands that a list of every investor and the amount taken be furnished. To obtain this information the committee finds it necessary to ask the individual investors for the information. The committee also urges that every citizen be prepared to make the initial payment on bonds. When the subscription is signed and the initial payment made the badge of honor, a button furnished by the government, will be given the investors.

There has been considerable speculation as to whether bonds in the \$50 denomination will be issued by the government. The council announces that it has received no information that the government will not issue such bonds. Every person who purchased a \$50 bond in former drives, will be urged, however, to double or treble the amount this time.

MANN ACT VIOLATION CHARGED TO PRISONER

FALLON, Nev., Sept. 25.—Passing a string of bad checks in California and Nevada, stealing an automobile in which to come to this state and running away with the wife of a Santa Cruz soldier and her infant, are charges under which Lee J. Carey is held here. Carey was arrested by Sheriff Charles Hand of El Dorado county, Cal., for victimizing Placerville men on checks. Fallon officers state that they sent word to United States Attorney Annette F. Adams of San Francisco, requesting the prosecution of Carey under the Mann white slave act, which makes it a criminal offense for a man to transport a woman not his wife from one state into another.

BLOWS OFF HIS HEAD

IMLAY, Nev., Sept. 25.—Placing a stick of dynamite in his mouth, David Eaton, employed as a miner by the Nevada Humboldt Tungsten company, fired the explosive, blowing off his head.

The suicide took place in No. 2 shaft of the mine. Eaton was 58 years old, and, as far as known, left no relatives.

PROVING UP LAND ENTRY

Albert Welsh appeared this morning at a hearing in the office of the county clerk in making final proof on a land entry at Sharps.

Light Work.

"Mrs. Griddle promised a tramp a good breakfast if he would cut a little wood."

"Well?"

"So the fellow consumed eight or ten biscuits, ham and eggs, some potatoes and two cups of coffee."

"And then did he cut a little wood?"

"Yes. He whittled himself a toothpick and said, 'Good morning.'"

SUPPLYING FRENCH HOSPITALS.

The Red Cross hospital supply service in France has 16 warehouses filled with drugs, medicines, surgical instruments and dressings. It serves the French military hospitals.

FOCH, MARSHAL OF FRANCE, AND GEN. PERSHING

"At the hour when the enemy counted upon imposing a German peace upon us, General Foch and his admirable troops vanquished him."

These were the words with which Premier Clemenceau, the "Tiger of France," accompanied the bestowal upon General Foch of the ancient and honorable title of Marshal of France in recognition of the halting of the German drive by the allied chief commander.

All the world knows of the gallant conduct of American troops, distributed along the front line under the orders of General Pershing, in the great battles which ended the Hun advance.

The next German drive will be toward the Rhine. YOU can have a share in it by buying Fourth Liberty Loan Bonds.

Old Man Runs Away From Home to Fight

(By Associated Press.)

LOS ANGELES, Sept. 25.—How Georges Le Mesnager, 67 years old, native of France and citizen of California, ran away from his Los Angeles home to fight the Hun, has just been made public through his wife, who has just learned now he had been wounded and of his gaining the croix de guerre and the medaille militaire.

A veteran of the Franco-Prussian war of 1870, Le Mesnager, despite his age, was anxious to return to France to fight the Germans again when the great world war began, but his family pleaded that he was too old. He thought differently about it, however, and sent his family for a week's outing at the seaside. When they returned home, they found he had sailed for France from New York.

It was not through him that his wife learned he had been wounded, but through other sources, for the veteran, who is described as physically a man of iron, has similar mental qualities. It was in a book on the war that Mrs. Le Mesnager read just how much of a hero her husband was.

"It is characteristic of my husband that he should say nothing of being wounded," she said. "He never writes anything about himself. It is always about the bravery of others. The only information of personal nature I had from him was that his weight had decreased, but he always insisted he was well."

"He did write from a hospital, but he stated he was there on business. He might be wounded a dozen times, but he never would tell us about it."

HAWAIIAN REFUGE RECENTLY OPENED

(By Associated Press.)

HILO, Hawaii, T. H., Sept. 9.—(By Mail)—Completion of an automobile road has made accessible to tourists one of the finest relics of the early Polynesia to be found in the territory of Hawaii, the great walled City of Refuge at Honaunau.

The City of Refuge was constructed, it is estimated, early in the twelfth century and was in constant use by the natives until shortly after the arrival of the first missionaries in Hawaii in 1820. It was so named because a native who had committed a crime was safe from punishment once he had won his way to the shelter of its rock walls.

The walls of the city are 700 feet long, 400 wide and 15 thick, and are well preserved on two sides, tidal waves in past centuries having wrecked the others. The great temple at the entrance is the burial place of Keawe, one of the earliest of the Hawaiian monarchs, and until a few years ago sheltered the priceless feather cloaks and helmets which are now in the museum in Honolulu.

Not only does the new road reach the City of Refuge, but it also passes within a few yards of the walls of the temple of Lono, within which the discoverer of the Hawaiian Islands, Captain Cook, lived for a long time in 1778. A monument nearby marks the spot where the explorer was killed the following year by the natives.

AMUSEMENTS

THRILLING PICTURE AT THE BUTLER TODAY

"Raffles," the thrilling detective drama that has blazed its way to every corner of the universe, and feature the most popular of all stage stars, John Barrymore, will be the special attraction at the Butler today. If you enjoy a good love story, with the eternal problem of two women; if you love suspense; if you want thrills, excitement, see this king of all detective stories. If you have been fortunate enough to have seen the stage version, imagine the excitement in seeing the thrilling adventures spoken of on the stage enacted on the screen.

The famous ruby theft is shown with the thrilling escape from the moving steamer, the theft of the Melrose jewels, from a real crook, who had come to steal them. The final outwitting of Captain Bedford even after Raffles' capture seemed almost certain are shown in detail in the screen version, impossible on the stage. John Barrymore is just the athletic type to perform the stunts called upon for Raffles to do and still present the outward appearance of the "gentleman of polish," adored by the women and a "hall fellow well met" with the men. The final scene comes with a mighty climax that will thrill you and send you away from the theater with joy in your heart that this big mischievous boy has outwitted his pursuers and escaped for possibly further adventures. Remember, the show starts promptly at 7 o'clock in the evening; the matinee at the regular time, 1:30. Come early, for you are going to see a picture you will like.

Tomorrow, beautiful Norma Talmadge, Friday, Douglas Fairbanks, Saturday, Viola Dana, Sunday, Wallace Reid. There will soon be a show every day at the Butler, just as soon as suitable programs can be procured.

At one station in France, Salvation army girls make and serve 2000 doughnuts a day to our soldiers.
